

CAPABILITY STATEMENT

Founded in 2012, Safe'N'Clear, Inc. markets the first FDA-approved surgical grade face mask with clear window. The Communicator™ is 100% sourced and made in the USA, and ADA-effective to allow visual communication and inclusivity for deaf, hard of hearing, and other visual communicators. The anti-fog clear window allows the ability to read lips and see facial expressions in areas where masks are required.

www.safenclear.com

Manufacturing partner and official distributor for The Communicator™ surgical-grade face mask with clear

window. ADA effective, surgical face masks for visual

communications provide inclusivity in settings where

masks are required to ensure public safety.

Purchase order NET 30 terms for pre-approved accounts or buy online using procurement card.
